SOURCE: U.S. Census Bureau, 1990 & 2000 Census data, 2008 Census estimates (www.census.gov [January 2010]).

¹ Native American includes American Indians and Alaska Natives.

² Other is defined as Asian Americans, Native Hawaiians, Pacific Islanders and all others.

³ Two or more races indicates a person is included in more than one race group; it was introduced as a new category in the 2000 Census.

⁴ Hispanic population is not a race but rather a description of ethnic origin; Hispanics are included in the five race groups.

NA = Not Available.

¹ The Health Care and Social Assistance NAICS sector comprises establishments providing health care and social assistance for individuals. The sector includes both health care and social assistance because it is sometimes difficult to distinguish between the boundaries of these two activities. Industries in this sector are arranged on a continuum starting with those establishments providing medical care exclusively, continuing with those providing health care and social assistance, and finally finishing with those providing only social assistance. The services provided by establishments in this sector are delivered by trained professionals. All industries in the sector shared this commonality of process, namely, labor inputs of health practitioners or social workers with the requisite expertise. Many of the industries in the sector are defined based on the educational degree held by the practitioners included in the industry.

* Data from County Business Patterns exclude self-employed persons, employees of private households, railroad employees, agricultural production workers, and for most government employees (except for those working in wholesale liquor establishments, retail liquor stores, Federally-chartered savings institutions, Federally-chartered credit unions, and hospitals).

Section A, Table 14 (continued)

Footnotes:

¹ Consists largely of temporary disability payments and black lung payments.

² Consists of Medicaid and other medical vendor payments.

³ Consists of payments made under the TriCare Management Program (formerly called CHAMPUS) for the medical care of dependents of active duty military personnel and of retired military personnel and their dependents at nonmilitary medical facilities.

⁴ Consists of benefits -- generally known as temporary assistance for needy families -- provided under the Personal Responsibility and Work Opportunity Reconciliation Act of 1996.

⁵ Consists largely of general assistance, refugee assistance, foster home care and adoption assistance, earned income tax credits, and energy assistance.

⁶ Consists of trade readjustment allowance payments, Redwood Park benefit payments, public services employment benefit payments, and transitional benefit payments.

⁷ Consists largely of veterans' readjustment benefit payments, educational assistance to spouses and children of disabled or deceased veterans, payments to paraplegics, and payments for autos and conveyances for disabled veterans.

⁸ Consists of state and local government payments to veterans.

⁹ Consists largely of federal fellowship payments (National Science Foundation fellowship and traineeships, subsistence payments to state maritime academy cadets, and other federal fellowship), interest subsidy on higher education loans, basic educational opportunity grants, and job corps payments.

¹⁰ Consists largely of Bureau of Indian Affairs payments, education exchange payments, compensation for Japanese internment, and other special payments to individuals.

¹¹ Consists of state and local government educational assistance payments to nonprofit institutions, and other State and local government payments to nonprofit institutions.

¹² Consists largely of personal injury payments to individuals other than employees and other business transfer payments.

(L) Less than \$50,000 but the estimates for this item are included in the totals.

SOURCE: U.S. Census Bureau (www.census.gov [January 2010]).

¹ Poverty is measured by using 48 thresholds that vary by family size and number of children within the family and age of householder. To determine whether a person is poor, one compares the total income of that person's family with the threshold appropriate for that family. If the total income is less than the threshold, then the person is considered poor, together with every member of his or her family. Institutionalized people, people in military quarters, people living in college dormitories, and unrelated individuals under 15 years old are excluded from the calculation of poverty rates.
